3000 Fee OS (Organisation of Study Associations)

70 This is the annual fee Proto pays for their membership of Organisation of Study Associations (OS). OS is the umbrella organisation of which most study associations of the UT are a member.

3010 Food and Drinks

75 This is the budget set for acquiring tea, coffee, sauces, coffee cups etc. that are free to use for any member of Proto.

3020 Protopolis

80 This money is used for maintaining and improving the Protopolis. Plans are made to buy either new chairs for the workspace in the Protopolis or a new screen on which the posters and a roster of this week's activities can be displayed.

3030 Bookkeeping Software

85 This is the annual fee paid for the licence of the bookkeeping software (Unit4) used by the treasurer.

3035 External Affairs Software

90 This software is used by the Officer of External Affairs and the Acquisition committee as a way to easily keep track of companies. This year, the costs of this software will slightly increase. The name of this software is Sponsit.

3040 Banking Costs

This money covers the costs for having a bank account and any transaction costs.

3050 Printing

95 There is a printer present in the Protopolis that can be used for printing Proto related documents with the authorisation of a board member. Expenses will go to operating costs of this printer.

3060 Board Insurance

100 This money goes to the insurance that protects the interests of Proto's board members in case of calamities in the association, meaning that board members will not be financially responsible when the association goes bankrupt.

3070 Representation

105 This money goes to any cause that represents the association to members or external parties. This could for example be contact with other associations or appreciation for our members and the study staff.

3075 Member Passes

110 This budget is for the toner for the pass printer and the passes themselves. In the previous years, the member pass printer has been out of order. The plan is to reinstall the printer this year. Since a lot of members will probably want to be in possession of a member pass, the budget for the member passes has been changed accordingly.

3080 Lunch Lectures

115 Lunch lectures are sponsored events, so Proto will not lose any money over them. It might be the case that Proto buys the lunch and then gets it refunded by the sponsor. That is what this balancing account is for.

3090 Active Member Appreciation

120 This is the amount of money that will be spent to show appreciation to the active members of Proto through an active member activity. More money will be set aside this year as the board is planning to organise a bigger active member activity (AMA), possibly in the form of an active member weekend.

125

3100 Phone

This is the money paid for having a phone line. Since no invoice has been sent for this for a couple of years already, a minimum amount of €50,- will be set aside for the phone line.

3110 Attaining New Board

130 The thirteenth candidate board will be attained this year. The budget will be used for this.

3120 Activities by the Board

135 The board organises multiple activities throughout the year. This budget is meant for those activities, both the ProtoDays and bigger activities.

3125 Board Restitution

140 Starting this year, board members will receive partial restitution for activities they have to be present at due to their task as board responsible. This to partly reduce the financial pressure board members put upon themselves when deciding to start a board year. The total amount of compensation will be €660,- euros equally divided over the board.

3130 Good Ideas Budget

145 This is the budget that can be used for realising good ideas members come up with.

3140 Board Weekend

150 This money will be used for the board weekend organised by the board at the end of the year when the candidate board has been chosen.

3150 Board Clothing

The association compensates the board for purchasing clothes for official occasions, where they need to represent the association appropriately. This compensation is €200,- per board member.

3160 Committee Members Budget

155 This is the budget available for committees to organise a team building or to buy clothing to make themselves recognizable at events. Every member of a committee can spend up to €15 euros for either a teambuilding activity or committee clothing. The committee cap of €75 euros has been disbanded for non-helper committees. The committee cap will stay in place for the GraphiCie, ProtOpeners, Guild of Drafters, Protography, EmergenCie and the OmNomCom committee due to their high number of committee members. Certain committees like the Dies and DIYcie that have to have committee clothing to be recognisable at events are able to ask up to another €30,- for a teambuilding.

3170 Posters

165 To properly promote the events organised by Proto, this budget is available for committees to print up to four A3 posters per activity.

3190 Constitution Drink

170 Proto organises a constitution drink to celebrate the charging of their new board. Beer will be offered for free during this drink.

3200 Take-Away Dinner Costs

175 Money to be spent on take-away dinners before or during activities. Proto pays for the delivery fee.

3535 Activities With Other Associations

180 Proto organises a couple of activities per year together with other associations, mostly with the study associations of the faculty of EEMCS. For these activities, each association contributes some money. These activities include two trips: the EEMCS Trip and the Ski trip.

3610 Food Helpers Activities

185 This budget will be used for offering food compensation to the ERO's, drafters and photographers when helping the association during dinner hours. This compensation will be 7.50 euros per meal.
